

Learning Technologies Conference

Event Overview:

The purpose of this PL module is to build the capacity of teachers and curriculum leaders to maximise the use of learning technologies from F – 6. We will be covering a broad range of connections between learning technologies and curriculum.

This event will be run in conjunction with the Ballarat and Western Metropolitan (Melbourne) dioceses with additional support from external providers.

This year we are consciously stepping away from the focus of coding and robotics which has dominated our learning technologies offerings for the last four years, instead offering opportunities to effectively embed technology across the curriculum such as literacy, numeracy and science.

Schools seeking guidance around digital technologies in 2018 can contact Kevin directly for tailored to your school.
